

Compliant Information Security • a tactical approach to achieving your security goals

*“Regulatory compliance is no longer an option
but a necessity for your z-Series and legacy systems”*

Compliant Information Security Advantage

Our unique **lockdown** approach progressively strengthens your Enterprise from the outside in. Our proprietary methodology allows us to comprehensively **identify security gaps and remediate risk**. Working with your team or independently, our strategy provides mitigation of risk while coexisting with your ongoing work processes and priority initiatives.

We can help you raise your system security posture to the levels demanded by today's world. Our expertise guides you through the maze of corporate and federal regulatory requirements. Partnering with your organization, we assist you in complying with internal and external audit findings, and requirements such as **GLBA, PCI, Sarbanes-Oxley, HIPAA, FMFIA, OMB A-123, ISO17799** or **SAS70** audits. We perform security **risk assessments**, develop and execute strategic **remediation plans** and produce **compliance documentation** for auditors. We provide you with the means to greatly enhance your company's ability to **sustain** your security controls.

Compliant Information Security Services

We offer companies complete packages of service from analyzing risk to solution implementation. À la carte offerings are also available to enhance existing security initiatives. All services are individually tailored for each client's unique environment.
